# PRIMO LAGER

A TASTE IS THE TEST  
Constant Use Shows its Good Results

"Primo Lager is a pure brew of malt and hops, scientifically made of the very best materials and by new and improved processes.

"Primo" is a home production, made at the Honolulu Brewery, and as it is not required to travel thousands of miles through various temperatures before reaching the consumer, NO FORTIFICATION IS NECESSARY.

This matter of fortification in beers is VERY IMPORTANT TO THE CONSUMER inasmuch as injurious substances, such as Salicylic and Benzoic Acids, Acid Fluoride of Ammonia or any other antiseptic acids are not necessary in a beer which is used for home consumption.

There is no element of chance in drinking Primo Lager, and as a tonic for mind and body it has no equal.

ABSOLUTELY PURE
